

Power Through A Hurricane

Hurricane season is upon us. Many in the area will lose power when a hurricane hits. Are you prepared for when your power goes out?

A whole home generator will assure that you and your family are safe, protected and have all the power you need. It will start automatically when your electricity goes out and will quietly power your entire home. You'll never be without heat, air conditioning, computers or lights again.

The time to protect your family is now. Be prepared. Plan ahead. Call **Virginia Power Solutions** today while generators are in good supply.
